

Cloud Secure: Google Cloud Security Audit

Prevent data loss and ensure compliance with a real-time security snapshot of your Google Cloud Environment.

Qwinix's team of certified Google Cloud Experts identify vulnerabilities and opportunities for additional tooling to help thwart malicious actors at every level.

Security Posture

Areas of Analysis

- » Organization folder
- » Projects structures
- » IAM usage » Bucket policies
- » Firewall rules » VPC settings
- » ACLs » Audit Logs
- » Security Command Center
- » SOC/SecOps team alignment
- » Threat reporting and monitoring
- » Security architecture

Deliverables

After our cloud experts analyze your environment, you'll receive a comprehensive security posture analysis that details:

Security Posture Size	Time	Cost
Up To 50 Projects	3 weeks	\$15k
50+ Projects	6 weeks	\$30k

Security Resolution

Project Specs

If vulnerabilities are detected, the Qwinix security engineering team can quickly deploy resolution efforts.

Deliverables

- » Remediation » SCC enabled
- » Forseti enabled » IAM architecture
- » Real-time logging enabled
- » Secure hierarchy architecture

Engineering Type: Resolution	8 weeks	\$50k
